Evaluation

45% of participants returned a completed evaluation.

100% of participants said their practice would very likely or likely change as a result of the shared learning.

100% of participants would recommend the virtual programme to colleagues

Participant Comments

"This was a great programme which allowed useful discussion, the final session on grief loss and self care was particularly timely."

"An excellent way to share information, good practice and provide support for colleagues. Thank you."

"Good topics, hard topics to cover but done extremely well".

Recommendations

- Consider changing the time/frequency of delivery to maximise attendance.
- Encourage participants to commit to the whole programme when possible.
- Encourage additional MDT attendance from Hub.
